## FREER AT HIS BEST.

Eloquent Congressman Discusses the Issues of the Day.

#### DAYTON MAKES SHORT SPEECH.

Ritchie County Statesman Makes Votes by His Eloquent and Logical Argument-Brings to Mind the Dark Days of Grover Cleveland's Reign.

Special Dispatch to the Intelligencer. (By Bill Partlow.)

FAIRMONT, W. Va., Oct. 3.-The Republican meeting here yesterday was one of the largest and most enthuslastic gatherings ever held in this place. The city was fairly ablaze with enthusiasm Republicanism. The opera hous was packed with anxious listeners while the doctrine of the Republican party was expounded. People came from all sections of Marion county eager to hear the principles of the grand old party.

The meeting in the opera house wa called to order at 2 o'clock. J. W. Shrayer was chosen chairman, who, in a few well chosen words introduced Congressman A. G. Dayton. Mr. Dayton spoke mostly upon the national prosperity of the country, and especial ly upon the prosperous conditions of West Virginia. He also touched upon the currency and trust questions. His speech was received with great enthuslasm, at the conclusion of which Judge Freer was introduced.

At His Best

The judge was at his best and made one of his usual eloquent, logical and characteristic speeches. It was the principal speech of the day and many of the older inhabitants claim it was the best speech ever made in this city. Everybody was delighted with the effort as well as the large and enthusiastic outbursts of applause with which the speaker was greeted. Judge Freer touched on all the issues of the day. He said in part:

"Our country is dedicated to liberty and equality under the law. We Republicans always believe, and we be-lieve it it to-day, that this is one nation one government, one people, with one flag, one faith, and one destiny. There is no north, no south.

#### Believe in Progress.

"We are Republicans because we be lieve in progress, development and advancement. The Republican party al-ways believes in doing something and the Republicans are never barred by the statute of limitations.

'Away back fifty years ago we said this should be a free nation and a free people. We believe that the first law of the Republican party is self protection. We said the government should protect its people and all their interests, and build up and enlarge the power and strength of this nation and we have

"I am told here to-day by the people that they cannot afford to spend much time attending political meetings because they are too busy. It was not so four years ago. You could get up on a dry goods box and yell 'political meetand everybody would go because they had nothing else to do.

#### Labor Was Silent.

"Labor was slient, mills were closed down, merchants were falling, farm products went down, and where, to-day, the smoke of prosperity is curling from the factories, the birds were then building their nests in the smoke stacks. There was nothing going on; thousands and thousands of good, honest and industrious men were tramping about from day to day, pleading for work and begging for something to eat.
"Great, strong, men had to assume

the role of tramps and eat at soup houses. The people could not secure employment. Three thousand strong, able-bodied men went to Washington under the direction of Coxey, knocked at the doors of Congress and begged for labor, but the only consolution they received was through the Democrats sticking their heads out of the door and telling them to keep off the grass.

No Trusts Nor Business. "The Democrats say there were no trusts in 1895. There was no business to pay trusts. Trusts are not the result of legislation, but the result of business conditions alone. Where there is plenty of business and plenty of money trusts will grow. When we find bad trusts it is our duty to take them by the throat and throttle them. The Republican party does not believe in trusts, but there is not a Demothere is not a Demo-or Republican in Marion county that would not go in a trust to morrow if they thought they could make \$50,000. Trusts are the result of business conditions and not political conditions. Out of the twenty-two states that have passed laws to govern trusts, twenty of them were Republican and two Democratic, yet the Democrats

#### Number of Soldiers.

"We have one soldier to every 14,000 inhabitants. Jackson had one to every 12,200 people. Nobody heard anything about militarism under the Democratic party, yet at the present time they claim our country is menaced by our army. Who composes that army-your sons and my sons compose that army. Are you willing to trust them? I am thank God we have an army. I thank God we have got one in the Philippines pave a way for our Christian civiliza-

We hear our Democratic friends talk imperialism. What does it mean? I think the Democratic platform comes as near telling us as anything, which is merely an issue to criticize our policy in the Philippines. We had a war with Spain and destroyed her fleet. Do you want to take it back? When the war was over we came into possession of the Philippines.

#### The Treaty of Peace.

"The treaty of peace was ratified by the aid of the Democratic party and our sovereignty went over those islands the same as it did over the state of West Virginia, and why does the Demceratic party not let its sympathy go out to the negroes of the south stead of allowing it to go out to a peo-

ple who are shooting holes in our flag

and our American soldiers?
"We govern the people of the Distric of Columbia without their consent, we govern the Indians without their con sent, we governed the people of Louisiana, under Thomas Jefferson, without people in the Philippines until they become capable and civilized."

#### BENWOOD.

News Notes From the Busy Marshall County Town.

Ex-Congressman C. N. Brumm, ennsylvania, will address a r rennsylvania, will address a mass meetling here to-morrow evening, from the platform at the corner of Main and Sixth streets. The Rough Rider clubs from Wheeling will turn out and there will be a creditable parade.

William Plim had a gash cut in his head Tuesday night, by being hit with a beer bottle. He engaged in a fight with two other men as dame out third best. A surgeon put three stitches in the wound.

#### FINANCE AND TRADE.

#### The Features of the Money and Stock Markets.

NEW YORK, Oct. 3.-Money on call firmer at 24/6/21/2 per cent. Prime mercantile paper 3615½ per cent. Sterling exchange weak, with actual business in bankers' bills at \$4 84% for demand and at \$4 \$14,64 \$14 for sixty days; posted rates \$4 \$264 \$25, and \$4 \$564 \$55. Commercial bills \$4 \$94,64 \$1. Silver certificates 63%@65c. Bar silver 63%c. Mexican dollars 50%c.

Government bonds steady. State bonds inactive.

Railroad bonds irregular. Wall street was considerably puzzled

by the resumption to-day of aggressive tactics for the advance after the bull campaign, projected on Monday, seemed yesterday to be abandoned. while the motive of the buoyant ris was difficult to discern, the force and the proportions of it we're sufficiently the bear party and to induce heavy covering all around. The small bears, who had resumed operations for the decline had resumed operations for the decline yesterday, were the first to fall victims to the manocurres of the bulls, who, however, give indication of being after larger game, and pursued their advantage with great confidence and abounding resources. They drove some long standing shorts to cover and ultimately effected a buoyant rise in the whole market, which closed strong and active at the highest level of the day and at net gains ranging from one to over two

market, which closed strong and active at the highest level of the day and at net gains ranging from one to over two points for a large number of active stocks. Opening declines in a number of stocks seemed only to afford the better vantage ground for the advance, which was thereby made the more impressive. The acute depression manifested by a few industrial stocks was without effect in deterring the buils from their manipulation in the market. Inquiry of commission houses fails to find any trace of buying orders from outside sources, and opinion is agreed that to-day's movement was practically in professional hands. A long persisting buill is showed to have joined by some of the powerful operators who have recently returned to the street or a campaign against the shorts. Stocks which have recently been the special target for-bear attack reflected the most urgent demand to-day. Missourl Pacific, which is a leader of this class, showed gathering strength during the day in connection with yesterday's animal meeting of the stockholders in the day in connection with yesterday's an-nual meeting of the stockholders in the St. Louis & Southwestern railroad, the action at which is supposed to forenual meeting of the stockholders in the St. Louis & Southwestern ralivand, the action at which is supposed to foreshadow more intimate relations between the Iron Mountain and St. Louis Southwestern raliways. From the early low point Missouri Pacific was carried up to 3½ per cent. Burlington also reflected a demand of a large outstanding short interest and was marked up an extreme 2½. Baltimore & Ohlo, Northern Pacific and Louisville were also prominent in this class, but the movement gathered force and breadth and ultimately spread through the whole list. The most buoyant period of the market was due to the circulation of a rumor that President Mittehell, of the United Mine Workers, had called the coal strike off, which completed the discomitture of the shorts. Even Tennessee Coal, which had sold down 3½ on the fear that no dividend would be declared at to-morrow's meeting, raliced four points and Sugar, which had fallen 2% on account of the demoralized condition and the deep cutting in prices in the reflued sugar market, rallied 1%. The continued weakness of sterling exchange was used by the buils as an argument for the advance in stocks, on the ground that imports of gold could not long be deferred. A further easing of discount rates in Berlin gave strength to the argument, but in London there was a significant hardening of discount rates on an expectation that the Bank of England will ralse its official rate to-morrow.

The local market for time loans continued irm and the minimum rate for call loans was advanced ½ per cent.

Bonds were not much affected by the activity in stocks and total sales par value, \$390,000. United States bonds were unchanged in bid price.

CHICAGO-Wheat was irregular, but closed strong: November %6%e higher. Corn closed unchanged and oats %c Provisions closed 74@10c to 274c

up. Provisions closed 7½@10c to 27½c higher.
Wheat was weak and strong by fits and starts. Until near the end of the session trading was largely of a local character, with scalpers on the verge of receivers researched. character, with scalpers on the verge of nervous prostration from trying to keep on the right side of shifting sentiment. Liverpool did not reflect the deciline here yesterday, and the northwest still had bad weather. With these considerations November opened 160 decides the higher at 774,077%c. On lack of outside support the market dropped to 76%c. Liverpool showed greater firmness later and shorts took back earlier stuff, causing a rally to 77%c. The market was not big enough to stand the profit taking which met this bulge and again weakness appeared, Novemthe profit taking which met this bulge and again weakness appeared, November dropping to 77%c. At this point strong talk of cash business from the northwest, buying by interests of that section in this market and indications that shipping business here will soon pick up, caused a sharp raily near the end. November jumped rapidly to 77%c and closed strong and 5%3%c over yesterday at 77%677%c. The seaboard reported twenty-eight loads taken for export. Clearances in wheat and four were equal to 400,000 bushels and local cash sales footed up to 200,000 bushels. Primary receipts aggregated 1,078,000

cash sales footed up to 299,000 bushels. Primary receipts aggregated 1,075,000 bushels, compared with 1,371,000 bushels. Minneapolls and Duluth reported 427 cars, against 315 last week and 325 a year ago. A Duluth authority declared present receipts to be the probable maximum movement of this crop in the northwest. Local receipts were 163 cars, four of contract grade.

Corn was moderately active and firm. The opening was a shade easier be-

Corn was mount of the was a shade easier cause of an improvement in the wear er west, giving promise of a lar movement before the end of the more acceptances of last algorithms.

movement before the end of the month. Country acceptances of last night's bids, however, were very light and from this the market derived considerable of its firmness.

The scaboard reported an excellent demand for cash, but the demand was not apparent here unless it was done outside the usual channels. The market scored a good advance on good buying by shorts, but lost it on profit taking. November sold between 37%c and 38c, and closed unchanged at 37½c. Receipts were 344 cars.

Oats continued in their course of doing nothing worthy of special mention.

Oats continued in their course of do-ling nothing worthy of special mention, but in a small way followed the fluctu-ations of wheat. November sold be-tween 22½@22½c, and closed ½c higher at 22½c. Receipts were 133 cars. Small stocks and buying packers, both of which created a seare among shorts, gave a strong provision market. Janu-ary pork sold between \$11.77½ and \$12.05 and closed 27½c over yesterday at \$12.02½. January lard between \$6.90 and \$37.07½, closing 7½@10c higher at \$7.07½ and January ribs between \$6.32½ and \$6.42½c, with the close 12½c better at \$6.42½c.

at 35 42%. Estimated receipts to-morrow: Wheat, 310 cars; corn, 510 cars; oats, 530 cars; hogs, 20,000 head. The leading rutures ranged as follows:

BOSTON-The American Wool and Cotton Reporter will say of the wool trade to-morrow: There has been a detrade to-morrow: There has been a de-cidedly better inquiry for wool in the past week and the sales reach a larger aggregate than have been reported since the week ending August 30, being over two million and a quarter pounds. This improved demand for wool is due not so much to any decidedly favor-able turn in the goods market as to the fact that consumers in many instances. fact that consumers in many instances are absolutely bare of wool and their stocks had become so seriously reduced that they were really compelled to come into the market and take stock or close their mills. One healthy feature of the situation is that the improved ciose their mills. One healthy feature of the situation is that the improved inquiry is not confined to a few houses, but has been pretty generally shared by the whole trade. Another feature of the business is the improved inquiry for fine wools, both washed and unwashed, but mostly the latter from manufacturers making a fine quality of goods which is in quite striking contrast to the demand which had previously prevailed which was almost exclusively for medium and low wools. The sales of the week in Boston amounted to 2,151,569 pounds domestic, and 117,009 pounds foreign, making a total of 2,268,509, against a total of 1,331,509 for the previous week and a total of 6,837,000 for the corresponding week last year. The sales since January 1, amount to 98,306,509 pounds, against 226,698,109 for the corresponding time last year. NEW YORK-Wool dull.

Dry Goods.
